

# Arthrex® MegaBiter™

Wider, Sharper and Flatter  
Than Ever Before

 Actual Bite Size

*The MegaBiter represents the next generation of meniscal contouring instrumentation.*

- Hard 455 grade stainless construction provides durable sharp edge
- Lifetime warranty on materials and workmanship
- Strong mechanism produces the widest bite in arthroscopy history
- Unique anatomical upswing within the cutting surface
- Creates a more anatomical meniscal rim configuration
- Engineered and manufactured at Arthrex California, Inc.
