Large-headed screws have presented challenges to foot and ankle surgeons when performing midfoot and hindfoot procedures. Screw head prominence can create patient discomfort and may result in hardware removal. The fully threaded, headless, titanium 5.0 mm Large and 7.0 mm X-Large Screws provide surgeons the ability to achieve zero-profile, stable fixation with optimized compression. This completes the Compression FT family of screws now offering a total of 5 diameters and 91 unique screw lengths to fit the various orthopedic applications throughout the body.

Key Features and Benefits:

- **Variable-stepped thread pitch** – The screw tip’s wider thread pitch enters the bone faster than trailing threads, gradually compressing the fragments as the screw is advanced.
- **Tapered proximal diameter tail** – This feature provides a buttress-like effect for the screw to compress in softer bone.
- **Headless** – Minimal risk of impingement or soft tissue irritation
- **Multiple size options** – 5.0 mm (24 lengths from 20 mm-90 mm) and 7.0 mm (22 lengths from 35 mm-140 mm)
- **Cannulation** – Assists in accurate placement
- **Improved torque transmission** – Hexalobe (T15 and T25) recess
Ordering Information

Compression FT Screw System Set (AR-8750S) includes:

- 5.0 mm/7.0 mm Compression FT Instrument Case
- Depth Device
- Percutaneous Drill Guide
- Guidewire Plunger
- Screw Holding Forceps
- Sharp Hook

**5.0 mm Large Compression FT Screws**
- Driver, cannulated, T15 Hexalobe
- Driver, solid, T15 Hexalobe
- Guidewire Sleeve, 1.6 mm
- Soft Tissue Protector, 1.6 mm
- Drill Sleeve, 5.0 mm Large
- Screwdriver Handle, Ratcheting, AO

**7.0 mm X-Large Compression FT Screws**
- Driver, cannulated, T25 Hexalobe
- Driver, solid, T25 Hexalobe
- Guidewire Sleeve, 2.4 mm
- Soft Tissue Protector, 2.4 mm
- Drill Sleeve, 7.0 mm X-Large
- Screwdriver Handle, Ratcheting, TriLobe Axial Handle
- Screwdriver Handle, Ratcheting, TriLobe T-Handle

**Implants:**

- **5.0 mm Large Compression FT Screws**
  - 20 mm-50 mm (2 mm increments)
  - 55 mm-90 mm (5 mm increments)

- **7.0 mm X-Large Compression FT Screws**
  - 35 mm-120 mm (5 mm increments)
  - 125 mm-140 mm (5 mm increments)*

*Available outside of set sterile packed

**Disposables (not included in set):**

- **5.0 mm Disposable Instruments**
  - Guidewire w/Trocar Tip, 0.062" (1.6 mm)
  - Guidewire w/Trocar Tip, 0.062" (1.6 mm), Threaded
  - Profile Drill, 5 mm Large
  - Drill Bit, straight, cannulated, 3.2 mm
  - Drill Bit, straight, cannulated, Long, 3.2 mm
  - Trephine/Extractor, 5.0 mm Large Compression FT

- **7.0 mm Disposable Instruments**
  - Guidewire w/Trocar Tip, 0.094" (2.4 mm)
  - Guidewire w/Trocar Tip, 0.094" (2.4 mm), Threaded
  - Profile Drill, 7 mm X-Large
  - Drill Bit, straight, cannulated, 5 mm
  - Trephine/Extractor, 7.0 mm X-Large Compression FT

**Additional Screw Caddies Available (OPTIONAL):**

- Compression Screw Caddy, 5.0 mm
- Compression Screw Caddy, 7.0 mm
