

NanoScope

Nano Operative Arthroscopy System

NanoScope™ Tablet Control Unit (AR-3200-0030)

The Synergy NanoScope imaging system is the first **medical-grade**, 3-in-1 chip on tip, single-use camera system. The NanoScope combines the latest technology in 1 mm imaging sensors, LED lighting, image management, and OR integration with an intuitive tablet control.

Features

- 400 x 400 resolution on 13" 3-in-1 camera control unit
- Built-in microphone for video dictation
- Network capabilities to facility health records, PACS, and Synergy Surgeon App™ software
- HDMI output to extend the video signal to in-room displays and integration systems

Camera Head and Cable Kit, Disposable (AR-3210-0040)

Features

- 1.9 mm diameter with 2.2 mm inflow or outflow sheath
- 0° angle, 400 × 400 image resolution, with 120° field-of-view
- Single-use ergonomic handpiece
- Programmable buttons for image and video capture

Includes camera instruments:

- Single-use camera
- 2 In-flow cannulas
- 1 Sharp obturator
- 1 Blunt obturator
- 2 Fluid stopcocks

Patient Prep Kit (74312-01M)

- Starter kit to assist in preparing the patient for a nano arthroscopy procedure and to support fluid inflow
